Peace Health is currently in need of a per-diem Cardiac Rehab Therapist (exercise specialist, essentially).

A degree is required but we mostly hire for personality and need someone with a flexible schedule.

It is basically covering vacations, sick days etc. It is a position that is very busy over summer, spring break and winter break and less busy during the school year.

Day shift only, no nights or weekends.

If you are a recent graduate, who may be interested, the job should be posted sometime in the next week or two on the Peace Health website.
