Recreation Program Application Process

Priority Deadline: First Thursday in November  
November 2, 2017

The application process consists of the following four parts. Please turn in all paperwork to Katey Roemmele in Carver 209 (documents DON’T have to be in a folder). The priority deadline is Thursday, November 2, 2017; this includes having your interview done by that date. Applications will be accepted after the priority deadline date if space is available in the program.

The entire application packet is separate from the application to Western Washington University. Admission to the Recreation Program is contingent on admission to Western Washington University.

1. General information: Please address the bullets below in a typed Word document:
   - Date
   - Name
   - Student #
   - Local address (street address, city, state, zip)
   - Permanent address (street address, city, state, zip)
   - WWU email address
   - Other email address
   - Cell phone
   - Permanent phone (if applicable)
   - College(s) attended
     - Name of college(s), dates attended, area of study, and GPA
   - Work experience (volunteer or paid)
   - Life experience (travel, special experiences, etc.)
   - Leisure interests / recreation skills
   - Interest Area(s): _____ Community Recreation _____ Outdoor Recreation _____ Tourism _____ Therapeutic Recreation _____ Generalist _____ Undecided

2. Include a double-spaced, 2-3 page essay that addresses the following questions:
   - Why are you interested in a career in recreation and leisure services?
   - What contributions do you think you can make to the field of recreation and leisure services?
   - What can you contribute to the Recreation Program and what do you expect to receive from it?
   - Optional: Discuss any other relevant factors that may help us better understand you.

3. Please attach an official or unofficial transcript of all college coursework, both here at WWU and at any other colleges you have attended.

4. Schedule an interview with a member of the faculty after all materials have been submitted. You should give the faculty member a day or two to review your application before your interview. (Sign up in Carver 209.)
Admission to the Recreation Program is based on the following criteria:

- Rec 201, Foundations of Recreation and Leisure, must be successfully completed (minimum grade of “C”) before students may start Phase I. Students who have successfully completed the equivalent of Rec 201 at another college may have it waived with prior permission. (Rec 201 is offered fall and winter quarters only.)

- Grade Point Average: The minimum acceptable GPA is 2.0. However, most students who are admitted to the program have GPAs well above the minimum.

- Interview: The interview includes questions related to the student’s background, work and life experiences, interest in recreation and leisure as a career, and academic strengths and weaknesses. The student is responsible for scheduling an appointment before the deadline.

- Essay: See preceding comments on page 1.

- Experience: Paid or volunteer experience in recreation-related positions is preferred. Other relevant work and life experiences are also considered.

Important information about applying to the Recreation Program:

- Students must have reached sophomore status by the spring quarter they plan to begin the program.

- The number of students admitted to the program each year is limited to about sixty. The number of applications exceeds available openings. Students should prepare their material carefully and completely.

- Applicants should first submit their materials to Katey Roemmele in Carver 209 and then schedule an interview with a faculty member prior to the deadline.

- The priority deadline for completing all aspects of the application process (including the interview) is the first Thursday in November (11/2/17). Applications will be accepted after the priority deadline date if space is available in the program.

- For priority applicants, the faculty will make the final decisions in mid-November. Letters of admittance will be emailed to applicants prior to Thanksgiving break.
Bachelor of Arts Degree – Recreation

Western Washington University’s Recreation Program prepares students for careers planning, developing, and delivering leisure services in response to the needs of society for health, well-being, and quality of life. The curriculum adapts the quarter system to a “Phase” structure. Once admitted to the major, students enter Phase I of the curriculum during spring quarter. They continue through the curriculum as indicated by the schedule below. Students must have at least sophomore status to begin the program and the Phase curriculum must be completed in sequence.

Major Concentration: 67 credits

Completion of Rec 201, Phases I, II, III and IV

Support Areas: 25 credits

In addition to the Phase requirements, recreation majors must complete a 25-credit support area. Support area plans are developed with and approved by the student’s faculty advisor and may take either the form of a traditional minor or an interdisciplinary study. See an advisor for more information.

</table>
**PHASE II (winter) – 16 credits**

370* **Outdoor Program Development** (4)

Prereq: Phase I Recreation major or permission of instructor. Methods and techniques in the organization, implementation, and evaluation of recreation programs in outdoor settings.

372 **Management of Recreation and Leisure Services** (5)

Prereq: Phase I Recreation major or permission of instructor. Entry-level administrative knowledge and skills for managing personnel and organizational resources in recreation and leisure services.

373 **Recreation Programming** (4)

Prereq: Phase I Recreation major or permission of instructor. Systems approach to programming methods for individual and group program planning in all recreation and leisure settings.

376* **Therapeutic Recreation Program Design** (4)

Prereq: Phase I Recreation major or permission of instructor. Methods and techniques in the organization, implementation, and evaluation of recreation programs for special populations: needs assessment, activity modification, adaptive equipment, physical and behavioral management, and intervention techniques.

377* **Community Recreation** (4)

Prereq: Phase I Recreation major or permission of instructor. An examination of the traditional and alternative models of community development and their connections to recreation programming, aimed at understanding the interrelationships and importance of social, political, and economic dimensions of community.

378 **Human Relations: Concepts and Skills** (4)

Prereq: Phase I Recreation major or permission of instructor. Knowledge of human relations concepts and development of basic helping skills needed by individuals working in therapeutic relationships in outdoor, community, tourism, and institutional settings. Designed to meet certification requirements for therapeutic recreation.

379* **Tourism Planning and Development** (4)

Prereq: Phase I Recreation major or permission of instructor. Course will introduce students to the history, concepts, principles, marketing, and planning of ecotourism activities. The focus will be on tours and activities that promote cultural and environmental awareness, community empowerment, and local economic benefits. Emphasis will be on non-western cultures.

*Students choose one of four courses marked with an asterisk in Phase II.

**PHASE III (spring or summer) – 15 credits**

473 **Internship III** (15) – spring  OR  472 **Internship II** (12) – summer

and  471 **Internship I** (3) – spring or fall

Prereq: Phase II Recreation major. Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.
Students are also required to complete a minimum of 240 hours of approved paid or unpaid field work experience in recreation and leisure services prior to registering for their internship.

Students planning to do a summer internship (Rec 472, Internship II) must register for Rec 471 (Internship I) either the quarter before or the quarter after the internship. This gives students the full 15 credits for their internship. Rec 471 provides the additional three credits only; there is no work to be done for this class as all the work is done during the summer quarter internship. Students should see their advisors for further information.

**PHASE IV (fall) – 15 credits**

**421* Therapeutic Recreation Trends and Issues (3)**

Prereq: Phase III or appropriate experience; written permission. An analysis of trends and issues affecting the profession of therapeutic recreation.

**444 Recreation Budgeting and Finance (4)**

Prereq: Phase III Recreation majors or permission of instructor. Principles and techniques of obtaining, budgeting, and managing financial resources in parks and recreation agencies.

**450 Recreation Program Evaluation (4)**

Prereq: Phase III Recreation majors or permission of instructor. Quantitative and qualitative methods of program evaluation emphasizing experiential learning, questionnaire design and survey research, interviews, observations, and consensus techniques.

**470* Adventure-Based Programming (3)**

Prereq: Phase III Recreation majors or permission of instructor. Methods and techniques in the assessment, design, implementation and evaluation of adventure programs in enrichment and therapeutic recreation settings.

**475* Community Development and Leisure Services (3)**

Prereq: Phase III Recreation majors or permission of instructor. Principles and techniques of using community-driven assets-based models to focus on how recreation and leisure services form coalitions to serve marginalized communities. Case studies are used to examine barriers to and opportunities for community development.

**479* Ecotourism: Principles and Practices (3)**

Prereq: RECR 379 or permission of instructor. Provides an understanding of the principles and practices of ecotourism. Examines theory, practice, history, terminology, and issues in ecotourism planning and management. Emphasizes sustainable practices as they relate to traveler education, tour planning, and destination development.

**480 Leisure and Society (4) – WP3**

Prereq: Phase III Recreation majors. Senior capstone that builds on general education and foundations of professional education. Goal is to synthesize diverse strands of theory and practice into an integrated understanding of recreation and leisure in modern society, with implications for professional service.

*Students choose one of four courses marked with an asterisk in Phase IV.  
(Revised Fall 2017)
