

I am WWU alumni and clinic director for the Lynnwood RET PT clinic. I have had really good success with hiring awesome new grads who are interested in personal training, physical therapy, and exercise physiology as they prepare for what is next in their careers, whether that be PT school or otherwise. I'm reaching out hoping that you might be able to pass this email on to your kinesiology student body if possible. My clinic has 2 exercise tech positions available and our company has many others from Bellingham to Tacoma. If there are students or recent grads who are interested, please have them send me their resume and cover letter at bsimpson@retpt.com?

Thanks!

Bryan Simpson, PT, DPT

Clinic Director of OrthoSport Physical Therapy
