

I was a graduate of the kinesiology program in winter of 2014. I am the current lead at a cardiac rehab facility located in Everett ,Washington. We have an opening for a .7 FTE (full-time employee) in our department. Feel free to pass on the job posting to any students who would be interested and will be graduating in winter quarter. I would prefer students who have completed/will complete physical fitness assessment and exercise prescription (Kin 415).

[The job posting is here.](#)

Thank you,

**David Castor, CSCS**

Lead Cardiac Rehab Specialist

Providence Regional Medical Center Everett

1330 Rockefeller Ave. Suite MB-014 | Everett, WA 98201
