

Whatcom Sports & Recreation is looking for counselors and a camp manager for our Youth Activities Camp at the Sportsplex. We offer all day care to kids ages 5-12. We are open Monday-Friday and participate in activities like field games, soccer, ice skating, swimming, playground time, and more throughout the week.

Responsibilities of the camp manager are creating staff schedules, daily schedules, managing and supporting staff, connecting and spending time with campers, and communicating highlights and challenges with campers' families.

Camp counselors are responsible for leading daily activities, joining in on games and activities with the campers, problem solving and camper safety, and communicating with the camp manager about the highlights and challenges of campers.

We have one week of camp April 3rd-7th and then will run our 10-week summer camp from June 19th-August 29th. We would like to hire a manager with availability for both programs – Spring Break camp is a small-scale version of summer and would be a great opportunity to learn the logistics before taking over. However, we are happy to meet with anyone that feels they would be a great fit for the summer program.

I managed this camp for four years under the guidance of Elsha Grimes and am happy to answer any questions! If you are interested please feel free to email me directly.
