EMPLOYMENT

Western Washington University **3/2018 – Present**
Department of Psychology *Supervisor*: Jacqueline Rose, PhD
Bellingham, WA

Position: Adjunct Professor/Senior Instructor, Undergraduate Advisor, Non-Tenure Track Faculty
Responsibilities: Provide students with a high level of academic course instruction to engage them actively through discussion, writing, and evaluation using mixed remote and face-to-face instruction. Provide students with mentoring and future planning. Courses include cognition, human memory, scientific thinking and writing, and seminar courses in cognition, cognitive neuroscience, health psychology, and mental health topics and interventions.

Neuropsychological and Psychoeducational Services **8/2015 – 12/2021**
Independent/Private Practice *Supervisor*: Tedd Judd, PhD, ABPP-CN
Bellingham, WA

Position: Neuropsychology Resident/Associate
Responsibilities: Provided neuropsychological assessment and evaluation from a wide variety of referral sources to adults with learning disability, neurological disease, and psychological disorder. Provided brief cognitive and behavioral therapies (neuropsychotherapy) to adults with co-occurring neurological and psychological conditions. Provided forensic and cross-cultural neuropsychological assessment to adult immigrant populations seeking U.S. citizenship. Facilitated brain injury support groups for survivors and their support network.

Fairfax Behavioral Health **7/2014 – 8/2015**
Inpatient Psychiatric Hospitalization – Clinical Services *Supervisor*: Cerise Vablais, MBA, PhD
Kirkland, WA

Position: Clinical Psychology Intern
Responsibilities: Provided brief cognitive and behavioral therapies for adolescents and adults with a variety of severe psychiatric conditions. Facilitated psychoeducational and intervention process groups. Clinical rotations included: adult acute and sub-acute care; adolescent care; and psychological assessments hospital wide.

University of Washington School of Medicine **10/2010 – 6/2014**

Harborview Medical Center
Departments of Neurological Surgery and Rehabilitation Medicine *Supervisors*: Jesse Fann, MD, MPH
Seattle, WA Jo Ann Brockway, PhD

Position: Mental Health Specialist/Concussion Support Specialist

Responsibilities: Department of Defense funded randomized clinical trial on the Concussion Treatment After Combat Trauma Study (CONTACT Study). Provided a telephone-based intervention using behavioral activation, problem-solving treatment, or education only for active duty and recently discharged military personnel from Fort Bragg/Womack Medical Center and Joint Base Lewis-McChord/Madigan Medical Center. Provided in-patient and out-patient brief cognitive and behavioral therapies to trauma survivors.

Whatcom County Superior Court **12/2002 – 5/2010**
Office of the Clerk – Civil Protection Orders *Supervisor*: NF Jackson, JD
Bellingham, WA

Position: Department Supervisor, Legal Financial Obligations Officer, Court Clerk, Drug Court Specialist

Responsibilities: Supervised staff and facilitated civil protection orders for survivors of domestic violence, sexual assault, unlawful harassment, and vulnerable adults as a court advocate and facilitator. Additionally, assisted with financial management collection efforts for court ordered fees, screening of indigent offenders in a correctional facility environment, and supervised a substance use program for a regional drug court.

United States Marine Corps **7/1993 – 7/1997**
Marine Expeditionary Unit/Special Operations Capable
Camp Pendleton, CA

Position: Team Leader, Weapons Supervisor

Responsibilities: Supervised, instructed, and trained a special operations capable infantry team. Supervised the issuance, maintenance, and control of more than 500 small arms weapons and high technology equipment. Combat operations in Africa and Persian Gulf regions. Additionally, responsible for the procurement, equipment maintenance, and accountability of weapon and optical systems for a large military unit.

RESEARCH

Fielding Graduate University **9/2013 – 3/2018**
Dissertation Title: ***Prospective Memory Performance in Patients with Posttraumatic Stress Disorder with and without Mild Traumatic Brain Injury***

Committee: Judith Schoenholtz-Read, EdD, Henry Soper, PhD, Joe Bush, PhD, and Peter Graf, PhD

Description: Examined prospective memory performance between three groups (PTSD, mTBI/PTSD, and control) across neuropsychological assessments of memory, attention, executive functions, mood and trauma-related distress.

University of Washington School of Medicine **10/2010 – 6/2014**
Department of Neurological Surgery
Research Title: ***CONTACT Study***

Primary Investigator: Kathleen Bell, MD

Description: Provided cognitive and behavioral intervention to participants by phone. Contributed to research, editing of the treatment manual, and qualitative analysis of the interventions.

Walden University

Department of Social and Behavioral Sciences **9/2008 – 1/2009**

Research Title: ***A Qualitative Exploration of Life in the Oldest-Old***

Primary Investigators: Lee Stadtlander, PhD, and Martha Giles, PhD

Description: Conducted a series of interviews in a qualitative phenomenological study that examined how individuals over the age of 85 perceived their lives in terms of needs, beliefs, and desires.

Western Washington University **12/2003 – 8/2004**

Department of Psychology

Research Title: ***Reconstruction of Eyewitness Memory Using 3-Dimensional Objects Increases Resistance to Misinformation Effects***

Primary Investigators: Michael Warren, Jennifer M. McGillivray, and Brian Crabb, PhD

Description: Designed and conducted an independent research study that examined real world applicability of the misinformation effect using verbal and visual recollection strategies to better understand the validity and reliability of eyewitness memory. Collected, analyzed, and presented data at conference (PsychFest).

Research Title: ***Stanford Prison Experiment Revisited: What Were the Guards Instructed to Do?***

Primary Investigator: David Sattler, PhD

Description: Collected, analyzed, and presented data during an undergraduate group research project that examined the effect of two different sets of instructions regarding the role of participants that were published on the Stanford Prison Experiment. Collected, analyzed, and presented data at conference (PsychFest).

University of Washington **1/2001 – 4/2001**

Department of Psychology

Research Title: ***Effects of Epilepsy on the Mammalian Central Visual System in Rats***

Primary Investigator: Jaime Olavarria, MD, PhD

Description: Provided laboratory assistance with anesthetization, prepared slides for microscope, and maintained laboratory equipment/environment.

VOLUNTEER ACTIVITIES

Board of Directors, Pacific Northwest Wine Competition **1/2026 – Present**
Walla Walla, WA

Position: Board Member, Volunteer Coordinator
Responsibilities: Coordinate and support the event's volunteer workforce. This includes recruiting, organizing, and managing volunteers across multiple competition functions, ensuring smooth operations from setup to judging and the public event. Work closely with fellow board members to align volunteer efforts with event goals, provide clear communication and training, and foster a positive, professional environment that reflects the high standards of the regional wine community.

Community Drug Treatment Court **3/2002 – 12/2002**
Bellingham, WA *Supervisor*: Leigh Wirth, MSW

Position: Drug Court Specialist
Responsibilities: Collected and maintained client information through intake interviews and substance abuse screening with a population of pre-sentenced criminal defendants.

King County Crisis Clinic **11/2001 – 11/2002**
Seattle, WA *Supervisor*: Michelle Duncan, MA

Position: Crisis Intervention Phone Worker, Trainer
Responsibilities: Provided crisis intervention and psychiatric emergency services on a crisis line. Helped callers identify and clarify issues and feelings; assessed and referred emergent situations to appropriate mental health facilities; and provided resource information, as necessary. Assisted and coordinated training of new crisis clinic volunteers during a 50-hour training program.
