WHAT IS A MEDICAL SCRIBE?

A Medical Scribe is a revolutionary concept in modern medicine. Traditionally, a physician's job has been focusing solely on direct patient contact and care. However, the advent of the Electronic Health Record (EHR) created an overload of documentation and clerical responsibilities that slows physicians down and pulls them away from actual patient care. To relieve the documentation overload, physicians across the country are turning to Medical Scribe services.

A Medical Scribe is essentially a personal assistant to the physician; performing documentation in the EHR, gathering information for the patient's visit, and partnering with the physician to deliver the pinnacle of efficient patient care.

WHY BECOME A MEDICAL SCRIBE?

For someone interested in medicine, whether it is a personal interest, or part of a career goal to become a physician or physician assistant, the chance to become a Medical Scribe is unlike any other opportunity available. It offers exciting one-on-one collaboration with a physician, and is unprecedented in its level of exposure to real medicine in practice.

DOCTORS SAVE LIVES. SCRIBES SAVE DOCTORS.

MAKING A DIFFERENCE

"Being a scribe is a perfect job for anyone wanting to pursue a career in medicine. The job is not only a tremendous learning experience, but you're actually making a difference by assisting the doctors to be more efficient so they can focus more on the quality of care for their patients."

AMY HOGAN, 2010
